作品名稱：知道「聰」點寫嗎？

作者：Bibi Tayyaba

作者國籍：巴基斯坦

作者就讀學校：伊斯蘭脫維善紀念中學

作者的話:

I, BIBI TAYYABA, a Hong Kong-born-Pakistani, have observed this trend of the big brother or sister being forced to be the “perfect” role models for the younger ones by killing their own dreams!

It is very typical of parents to command their eldest child to fulfill their own wishes for instance, to have a doctor or engineer in the family by ignoring the wishes of their child which rarely leads to any success.

Thus, I wrote this picture book to convey my message to all the parents that forcing their child into a profession in which your child is not interested will not be for the betterment of any party, however, listening to their interest and guiding them positively towards their goal will lead to everyone’s victory.

In addition, I have learnt from Ms Li a special and simple way of remembering Chinese word characters which I have also integrated in my story so that all of us can benefit from it.

作品介紹:

這作品故事有趣滑稽、百看不厭。雖然故事簡單，但卻反映了作者對父母的不滿。少數族裔的父母對孩子要求多，但卻沒有給與適當的指導教育，導致學生壓力增加，性格扭曲。作者期望讀者可從滑稽的內容明白道理，作者更加入了漫畫裏的動作及對白，使讀者看得津津有味，極之有趣。
